Rationale: As Indian economy tries to integrate with International Economy, the volume of Import-Export Business to and from India is bound to grow. While the exports have grown significantly, the rise in export volumes is phenomenal. This is mainly due to upsurge in demand of Industrial and Consumer Products.

A common problem faced by all importers- Exporters is that of Valuation. The amended Section – 14 of Customs Act, 1962 coupled with revised Customs Valuation Rules, 2007 have made the Law, Rules & Procedures related to Valuation more complex.

While the Government on its part have tried to create an awareness on Valuation, still importers, exporters, Custom House Agents and Import – Export Professionals with the corporate are unaware of the intricacies involved in Valuation. This leads to high landed cost of Imports, transaction cost of exports due to enhancement in CIF Value by the Customs and curtailed export incentives.

As more and more companies go for import of technology and local businessmen go for trading into import items as business venture, it is imperative that a good knowledge on Valuation is acquired with corresponding compliances vis-à-vis Special Valuation Branch and related aspects.
