Rationale: Traditionally in India the word "Taxation" is stood for Income Tax. It is for this reason that the subject of Indirect Taxation of which **Customs** is a part has been an area of neglect on the part of Corporate, Professionals in the field of Taxation and Individuals. This neglect of the area of Customs is also reflected in Syllabi of Professional Courses such as CA, ICWA, Company Secretary, M.B.A(Finance) and even L.L.B.

As Indian Economy tries to integrate itself with global economy the volume of import and export from India is poised for quantum jump. While success in imports will be ensured by controlling landed cost of imports, the export operation would be successful if transaction cost of export is reduced. This requires a good knowledge on the part of importers and exporters about Customs Law & Practices. With large number of Free Trade Agreement/preferential Trade Agreements in existence and in offing, the knowledge about Customs has become all the more imperative.
