Our visionary Prime Minister Shri Narendra Modiji has seen an acute need for a complete and thorough transformation of our country in terms of ethics, values, manners, honesty, industriousness, cleanliness, education, self building, women empowerment, social welfare, protecting our cultural heritage and above all cultivating a National Character.

He has voiced his concern over all these issues on AIR and has emphatically urged all the citizens of our country and especially the youth to practice Mann Ki Baat which will strengthen the country and will push it forward to progress.

His talks are not mere words but they are heartfelt necessities and inspiration to the youth in order to take positive steps in this direction.

So if we take forward Mann Ki Baat of our Prime Minister, it will not only ensure its success but also will help our country to hold its head high in the world. This is possible only when we work unitedly for a noble cause.

Contribute your services for the next generation.

This programme is to recapitulate his thoughts and providing you possible directions to take your action in a positive direction.
