---

“*Certified Service Technician*” (CST) course for residential water treatment systems to industry members is intended for **Installers and Service Technicians** in the residential water treatment segment. The goal of CST program is to create a pool of skilled professionals readily available to Industry (Manufacturers, Distributors & Dealers) and provide companies with a qualified and skilled work force. This professional certification programme is a voluntary process.

**Below are the benefits of CST program:**

- Raise positive customer perception of the company and employees' integrity and professionalism
- Differentiate your company and personnel in market place
- Increase visibility through listing on IAPMO India and WQIA web site for ***all certified personnel listed***
- Increase employees self-confidence through sense of accomplishment
- Provide industry recognized training on water treatment basics, different technologies, troubleshooting concepts etc.
- Use badge/Certificate with pride
- Recertification ensures continued learning and focus on the current technical topics/ issues

**Training Process-**

The training program will be four days. A training manual/hand book is provided to candidates on the first day of training. Below topics will be covered in detail in theory and practical classes:

- Water chemistry and Water treatment fundamentals
- Detailed study of Components used in Point of use Purifiers
- Water treatment Technologies- RO, UV, Gravity, Disinfection, Ozone
- Sub assembly and Assembly of Water purifiers
- Troubleshooting
- Installation & Servicing
- Soft Skill Training

The practical class covers familiarization of all the components both electrical & nonelectrical of each technology and its functions. Further practical training on assembly of water purifier, installation procedures and a detailed description on troubleshooting covering real/field-based aspects.

**Certification Exam:**

Assessments will be conducted for theory carrying 50 marks(Technical & Soft Skills) and practical carrying 100 marks by IAPMO India. There will be 50 questions consists of multiple choice in the theory paper and time allotted is one hour. A practical exam of 100 marks will be conducted to know candidate competency on handling water systems in sub-assembly and assembly of purifiers. Also, practical questions will be based on components identification, troubleshooting and various aspects of servicing. Joint Certificate of IAPMO India & WQIA will be given to the passing candidates.
