Success is all in attitude. Entrepreneurs make their vision and goals a reality by reaching and achieving success in spite of many odds and hurdles. Being entrepreneurial is a mindset and entails set of some entrepreneurial attitudes. You may be in the financial field, business management, architecture, designer or a student of any field for that matter. You can have and / or develop entrepreneurial attitude.

“Entrepreneurial mindset refers to a specific state of mind which orientates human conduct towards entrepreneurial activities and outcomes. Individuals with entrepreneurial mindsets are often drawn to new opportunities, innovation, and value creation. It is about the way you approach challenges and mistakes (failures)

Greater you train your mind to develop entrepreneurial attitude, higher are the chances of success and achieving something significant in your life. It is now established that it is possible to develop and train a person to think, act and behave like an entrepreneur. By providing students freedom to imagine and by motivating them to look at their own inner potential and dreams one can ignite entrepreneurial mind at an early age. We aim to provide such opportunities to students for recognizing and developing their entrepreneur mindset.
